

1. An effective articulation system will essentially eliminate the need to equilibrate extensive and complete-arch occlusion at the device delivery appointment.
 - a. True
 - b. False
2. The first challenge in research was to develop a recording instrument that could conveniently produce PFP analogs having pathways representing the patients jaw motion.
 - a. True
 - b. False
3. By combining the elements, PFPs and authentic VRCs, a new concept "motion model" for capturing patient-specific jaw positions was discovered.
 - a. True
 - b. False
4. Dysfunctional occlusion is not a prime cause of dental pathologies and systematic diseases.
 - a. True
 - b. False
5. It is estimated that 28 million adults in the US, have or need, one or two complete-arch treatments and many of those involve dental implants.
 - a. True
 - b. False
6. The hypothesis for consideration in the present study was that a prototype instrument system, featuring a PFP articulator with VRC timing controls, can cause mounted study casts to follow wear- facets.
 - a. True
 - b. False
7. PFPs are obtained using engrave-pins in the same position on the patient as the pantographic tracings using styli.
 - a. True
 - b. False
8. If pantographic tracings represent patient specific jaw motion, then engraved PFPs don't need to represent patient specific jaw motions.
 - a. True
 - b. False
9. By integrating digital "motion capture" systems with new motion modeling systems, it is not possible to produce milled PFPs in a physical pathway-guided articulator.
 - a. True
 - b. False
10. PFP/VRC guided articulating systems are being made ready for academic and clinical investigations.
 - a. True
 - b. False

Passing quiz grades are worth ½ point documented scientific credit. To earn CDT credit, once the quiz is completed, send it to the NADL at the address or fax number below or submit this quiz online at <https://www.nadl.org/jdt-quiz-submissions>. To earn an additional ½ point professional development credit, visit www.nbccert.org to submit your time for reading the accompanying article(s) in the professional development log. Quiz credits will appear on the NBC CDT Online Education Tracking System at www.nbccert.org, which is updated weekly. This quiz is provided to test the technician's comprehension of the article's content, and does not necessarily serve as an endorsement of the content by NADL or NBC.
